<b>Notable Memories</b>	<b>Experiences that have shaped your life, or fond memories.</b>
<u>Childhood</u>	One notable memory that I have from my childhood is preparing to evacuate my house because of a major wildfire that was heading towards the heart of my hometown, South Lake Tahoe. I remember my parents secretly trying to pack clothes and other necessities for my brother and I, while also trying not to scare us that we were going to possibly have to leave our house in the
<u>Elementary School</u>	One experience from elementary school that is a very fond memory of mine is making my first friend the day I started kindergarten. I remember feeling so small, in such a big place, with people that I didn't know but going out onto the playground for first recess I spotted another little girl who was by herself too. I found the courage to go up to her and ask what her name was and she
<u>Middle School</u>	A core memory from middle school that shaped my life is experiencing heavy bullying for the first time. I remember boys making inappropriate comments and poking fun at my body because I had hit puberty very early on. Girls would say horrible things to me and leave terrible notes in my locker calling me names and saying I should hurt myself. While this was a horrible time for many, I
<u>High School</u>	Lastly, I would say my favorite memory from high school was getting to graduate a year early. I had completed all of the necessary academic requirements to graduate by the time I was half way through my junior year, and if I stayed for my senior year I would have been taking all extracurricular courses such as art, music, photography, or cooking classes. While I was sad about
<u>Work History</u>	In high school I got my first job at a little restaurant in Lake Tahoe called Bert's Cafe as a hostess and I quickly moved up to busser. While working at Bert's Cafe I also got my second job as an overnight nanny for two infant children, whose parents worked graveyard shifts at the Police Station. In 2022 I became an HR assistant for my aunts major event staffing company and
<u>Inspiring Experience</u>	An experience that was truly inspiring for me was attending an award ceremony to receive an Asian American Pacific Islander Recognition Certificate from San Diego Mesa College. This was an inspiring experience because I was able to hear speeches from my fellow AAPI Staff at Mesa, but I was also able to embrace my culture alongside my peers. The ceremony was full of AAPI culture
